# SUPER MARIO

## 10 THINGS-A YOU DIDN'T KNOW ABOUT A-MARIO!

IT'S-A-ME, MARIO!

1

In his first game he was a carpenter, not a plumber.

2

He wasn't always known as Mario. He was first called Mr. Video!

3

Then he was known as Mr. Jumpman. Neither of them are as catchy as Mario!

4

He wasn't always a good guy. In Donkey Kong Jr. he is horrible to Donkey Kong, his pet ape, which is why Donkey Kong steals Mario's girlfriend.

5

Mario's brother, Luigi, is a taller version of Mario but not as brave! He's even been known to cry!

6

He was given a hat and moustache because they were easier to draw than a mouth and hair back when technology wasn't as good.

7

Amongst other things, Mario has been a doctor, an archaeologist, an athlete and a kart racer!

8

Mario started off with red dungarees and a blue top instead of the blue dungarees and red top he's famous for now.

9

Mario's creator originally wanted to have him riding on the back of a dinosaur but again, the technology was pants! Now, of course, there's Yoshi!

10

Mario is probably the most famous video game character ever!

IT'S ON LIKE DONKEY KONG!

## SAI

### STRENGTHS

No sword on Earth can survive the Sai! The side blades trap and break an opponent's blade! Raphael uses his as pizza forks!

### WEAKNESSES

Very heavy, making them difficult to control. Throwing them with accuracy takes years to master.

## NUNCHUKS

### STRENGTHS

Incredibly fast and difficult to block. Brilliant for disarming enemies and locking their arms so they can't attack!

### WEAKNESSES

There's a pretty good chance you'll hit YOURSELF in the noggin! Many have tried nunchuks and ended up with a lump on their head!

## TWIN KATANA

### STRENGTHS

Light enough to hold in one hand so you can use two at the same time - two swords are always better than one!

### WEAKNESSES

Sai can snap a Katana blade like a twig!

## BO STAFF

### STRENGTHS

You can use the six foot long staff to block attacks by twirling it, keeping enemies at a distance. Donatello's has a secret switch that transforms it into a spear!

### WEAKNESSES

# MAKE A PICKLE TANK!

Help Bikini Bottom get the Krabby Patty formula back from Burger Beard by building a Pickle Tank like Patrick's!

## YOU'LL NEED!

- A PEN WITH A SPRING INSIDE
  - PAPER CUP
- SMALL CARDBOARD BOX
- COTTON BUDS
- CORRUGATED CRAFT CARD
- PLASTIC BOTTLE TOPS
- BLU TACK
- STICKY TAPE

## STEP 1

Remove the ink and spring from the pen. Cut a hole in the middle of a paper cup. The hole should be big enough to push the empty pen through. This will be the tank turret. Secure the pen inside with a bit of tape.

## STEP 2

Place your turret on top of a small cardboard box and draw around the cup. Cut a hole in the box and push the cup into the hole. The turret is now attached to the body of the tank and you will be able to turn the gun 360 degrees!

## STEP 3

Cut two strips of corrugated card and tape them into loops. Stick one either side of the box to make the tank tracks. Glue bottle tops inside the loops for wheels then paint the tank and make it look really cool!

## STEP 4

Now your tank is assembled, we need to make it fire! Put a small blob of blu tack on the end of the spring and drop it inside the pen barrel! blu tack end first.

## STEP 5

The cotton buds are your ammo! Slide a cotton bud into the pen barrel. Push the cotton bud down on the spring gently with your thumb. Let go and see it fire across the room! Epic!

TANKS FOR THE FORMULA! ARRRR!
